MANAGING YOUR OWN WASTE IN 3 STEPS:

1. Reduce your waste and garbage production:

Some ideas:

- Make your grocery shopping with reusable bags.
- Buy local fruits and vegetables. And place them in their own original packaging (jars, baskets).
- Make your own compost.
- Take a look on the website: https://www.taxe-au-sac-valais.ch/tri-mode-d-emploi/

2. Sort out and remove the waste at the ecopoints or authorized stores:

Waste removal at the authorized ecopoints / waste collection centers / specialized stores is for free. Useful information is on the inside page of this document.

3. Which products must be mandatory placed in the trash bags?

All type of wasting that is not gathered by ecopoints / collection centers / stores must be thrown in the taxed bags; so :

- food carton package (milk, fruit juice, etc.) made of plastic carton,
- paper, cardboard, soiled plastic packaging, that has been in contact with food, or other products (tissue paper sheet, pizza and laundry detergent package, etc),
- baby diapers, cotton swabs, tampons and other hygienic products (sanitary towels, wipes, toothbrushes, etc.),
- worn or soiled textiles (shoe polish), shoes,
- dust bags,
- garbage consisting of inseparable materials,
- rubber articles like pipes, rubber bands, etc.,
- pets fourniture,
- ..

All waste gathered by the ecopoints / waste collection centers / stores should not be deposited in the trash bags.

For the companies:

According to the art. 5 of the municipal regulation, solid or liquid waste resulting from the small business sector, from the industry or from the stores that cannot be assmilated at the urban waste network, **must be collected and eliminated by those who produce it**, except if there is a special permission of the municipality. This waste must be eliminated at the authoriezd and approved places according to the chapter 3 of the miniciapl regulation. The urban waste can be placed in the taxed bags ans at the communal infrastructure network.

Waste sorting? It is not that difficult!

Garbage bag's tax Instructions & practical information

Commune de Crans-Montana, January 2018
